Building AMU Site Goals:

- Building power at our sites must be rooted in the cohesion of our members and their belief in the power of collective action to achieve our goals as a Union and as individual sites. All schools are at different stages of developing a Union culture and an AMU identity, so one organizing plan cannot address all needs of each school. This year, our E-Board wants to help you achieve your local Union goals and build the strength and presence of AMU identity at your site. You will brainstorm ways to build an AMU identity at your school as well as supports the E-Board can provide to help you achieve this goal.
